

Product MSDS Request

July 23, 2013

Dear Customer,

Pursuant to your request for a Material Safety Data Sheet (MSDS), of Amphenol Industrial & Aerospace Operations (AIAO) interconnect products, we hereby offer the following information.

Amphenol Industrial and Aerospace Operations interconnect products are defined as *articles* per OSHA's Federal Hazard Communication Standard (29 CFR 1910.1200) and are specifically exempted from the requirements of this regulation per 29 CFR 1910.1200(b)(6)(v).

29 CFR 1910.1200(c) defines an *article* as:

...a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

AIAO will respond to specific questions regarding the health and safety characteristics of chemical constituents in their interconnect products to the extent that such response does not require the disclosure of proprietary or confidential information.

Should you have any further questions, please contact me at your convenience.

Sincerely,

John Bianchi
Product Compliance Engineer
